CoproBan®

Roast Beef-Flavored Chewable Coprophagia Deterrent for Dogs

It's a nasty habit – but coprophagia can be managed with CoproBan®!

Fed to cats and dogs in the household, CoproBan changes the taste and texture of feces so it's unpleasant to eat. It's cost-effective, and CoproBan is formulated in a delicious roast beef-flavored chew that can be given as a treat, helping simplify administration.

FEATURES
- Palatable roast beef flavor coprophagia deterrent
- Chewable for easy, accurate dosing
- Acceptable for cats and dogs
- 3 gram flavored chewable tablet in 20 blister pack
- Assists in fiber breakdown with MSG and cellulase

BENEFITS
- Consistent dosing - No more uncertainty
- No powder residue left in the bowl
- Deters dogs and cats from eating feces
- Deters dogs from litter box raiding
- Cost-effective for the pet owner and the veterinarian

3-gram chewable tablet in 20-count blister pack
Acceptable for cats and dogs

Stop what's coming out from going back in.

PRN® PHARMACAL

CoproBan®

Roast Beef-Flavored Chewable Coprophagia Deterrent for Dogs

ENZYME ACTIVITY:

Cellulase (*Aspergillis niger* var.) 31 Cellulase Units per gram

GUARANTEED INGREDIENTS:

Monosodium glutamate, partially hydrogenated vegetable oil, natural and artificial flavors, cellulase from dried *Aspergillis niger* fermentation product, soy lecithin, sodium chloride

USES:

CoproBan® is a convenient, easy-to-use, roast beef-flavored chewable used to deter coprophagia (stool eating) behavior in dogs and cats. CoproBan may be fed to cats to discourage dogs from raiding the cat litter box.

DIRECTIONS FOR USE:

- For dogs and cats
- Less than 40 lb., feed ½ chewable with each meal
- Over 40 lb., feed 1 chewable with each meal
- Feed ½ chewable for every 40 lb. thereafter

STORAGE AND SAFETY:

- Store at room temperature 15°-30° C (59°-86°F)
- Keep out of reach of children and pets
- Use only as directed
- Not for human use
- For veterinarian use only
