

CON FORM AID™ GRANULES

Nutritional Supplement for Horses

Regardless of the discipline, Con Form Aid Granules address the variety of specific nutritional challenges. The stresses that horse experience in work or play can affect the growth, condition and vitality of a horse. Con Form Aid Granules is formulated to support growth, balance rations and enhance conditioning for all breeds and disciplines of horses. Additionally, Con Form Aid helps support equine vitality in the following ways:

- Unique 0.85 to 1 calcium to phosphorous ratio
- Contains water soluble phosphorus
- Contains Vitamin D3 to aid in the utilization of the phosphorous and calcium
- Contains Vitamin A Acetate to help increase connective tissue for tendon strength and growth

Why Con Form Aid?

- Flavored with molasses and apple to ensure palatability
- Water-soluble phosphorous for enhanced absorption
- Great supplement for poor pastures

Supporting Equine Vitality!
