

HI-ENERGY SUPPLEMENT™

SUPPLEMENT FOR CATTLE AND HORSES

PRN Hi-Energy Supplement™ supplies the energy boost young or ill cattle and horses need. Packed with Amino Acids, B-Complex Vitamins, Liver and Iron and formulated with Propylene Glycol, PRN Hi-Energy Supplement™ is an ideal substitute for I.V. Glucose.

- Easy to administer.
- Administration method protects from aspiration and mouth injury.
- Glycogenic precursors have proven greatly effective in low energy animals.
- Provides longer glucose levels that aid weak and convalescing animals.

- Supportive nutrition to assist with stress, cell and muscle repair and overall improvement.

Manufactured for:

HI-ENERGY SUPPLEMENT™

Dosage:

Cattle and Horses: ½ to 1 tube twice daily.

Directions for Use:

Hold animal's head in a slightly elevated position and place tube in animal's mouth directly over the tongue. Quickly express the correct dosage into the animal's mouth and hold closed until emulsion is swallowed. Do not use a rope or restraint that will choke the animal.

Caution: Use extreme care to prevent injury to the animal's mouth and throat tissue when administering PRN Hi-Energy Supplement™. Do not allow the animal to chew on the tip of the tube which can result in mouth laceration. Do not administer to animals with open sores in the mouth or throat. Supplement may cause irritation to eyes and skin.

Each tube contains per ounce:

Amino Acids	44 mg
Thiamine	32 mg
Riboflavin	8 mg
