

CoproBan[®] *Roast Beef-Flavored Chewable Coprophagia Deterrent for Dogs and Puppies*

It's a nasty habit – but coprophagia can be managed with CoproBan[®]!

Fed to cats, dogs, and puppies in the household, CoproBan changes the taste and texture of feces so it's unpleasant to eat. It's cost-effective, and CoproBan is formulated in a delicious roast beef-flavored chew that can be given as a treat, helping simplify administration.

- FEATURES**
- Palatable roast beef flavor coprophagia deterrent
 - Chewable for easy, accurate dosing
 - Acceptable for cats, dogs, and puppies
 - 3-gram flavored chewable tablet in 20 blister pack
 - Assists in fiber breakdown with MSG and cellulase

- BENEFITS**
- Consistent dosing - No more uncertainty
 - No powder residue left in the bowl
 - Deters dogs from litter box raiding
 - Cost-effective for the pet owner and the veterinarian

3-gram chewable tablet in 20-count blister pack
Acceptable for cats, dogs and puppies

CoproBan®

Roast Beef-Flavored Chewable
Coprophagia Deterrent for Dogs
and Puppies

ENZYME ACTIVITY:

Cellulase (*Aspergillus niger* var.) 31 Cellulase Units per gram

GUARANTEED INGREDIENTS:

Monosodium glutamate, partially hydrogenated vegetable oil, natural and artificial flavors, cellulase from dried *Aspergillus niger* fermentation product, soy lecithin, sodium chloride

USES:

CoproBan® is a convenient, easy-to-use, roast beef-flavored chewable used to deter coprophagia (stool eating) behavior in dogs and cats. CoproBan may be fed to cats to discourage dogs from raiding the cat litter box.

DIRECTIONS FOR USE:

- For dogs, cats, and puppies
- Less than 40 lb., feed ½ chewable with each meal
- Over 40 lb., feed 1 chewable with each meal
- Feed ½ chewable for every 40 lb. thereafter

STORAGE AND SAFETY:

- Store at room temperature 15°-30° C (59°-86°F)
- Keep out of reach of children and pets
- Use only as directed
- Not for human use
- For veterinarian use only
